# BORA Premium
## Accounting Edition

**The most reliable and scalable management and accounting solution, tailored to the needs of Travel Agencies in Africa.**

In this changing and highly competitive domain, one of the major worries of a travel agency is the need to control its transactions while managing its travel data from Front-Office through Back-Office. BORA Premium is an accounting Edition that brings together both Mid-Office and Back-Office into a unique solution that provides the best data workflow together with full traceability.

## Overview BORA Premium

BORA Premium is a user-friendly and very easy to master solution. It is the ideal software for agencies that which to have an All-In-One Solution.

Easy and intelligent invoicing as well as reconciling operations are all done instantly. This saves time and eliminates the risk of errors due to a manual process.

Based on the need of the agency, all transactions are sent automatically or upon request to the integrated accounting module in the form of accounting entries that can be customized.

BORA Premium can be interfaced with all GDS and it can automatically retrieve all Front-Office transactions of the agency.

## Value Proposition

BORA Premium is an All-In-One Solution

- Centered on Mid & Back-Office
- Available in more than 26 countries / English and French
- Multi GDS
- Multiple Agencies, Multi User
- Accounting module integrated
